***APPLICATION FOR REGION 51
700 MHz RADIO SPECTRUM***

Presented by Catherine Cordeiro

Mr. Robert Howard, Chairman
NPSPAC Region 51

Dear Chairman Howard:

Austin County 700MHz application.

Austin County requests the assignment of six (6) radio channels by region 51 for the aid in expansion of the regional Project 25 (P25) trunked radio system. The addition of these frequencies are required to provide the coverage and loading for the growing number of users in this area of the regional P25 radio system.

The P25 regional system has been established in the TXWARN System. Austin County has joined the Regional P25 system; these 6 frequencies we are requesting will be used at existing sites and for system expansion by adding additional sites to increase capacity for users to the system.

The requested frequencies are needed to establish a P25 interoperable communication system for migration of the existing 33000 analog users to the P25 digital system. The P25 digital system is designed to bring the regional communications to the highest level of interoperable communications available.

The appropriate APCO, FCC forms and coverage maps have been completed and are attached. Coverage maps follow TIA/EIA TSB 88 guidelines and include interference area studies.

Equipment has been purchased and installed awaiting frequencies. The remaining simulcast sites have been approved with grant funds and are in the process of being ordered.

Implementation will be completed within twelve (12) months after the FCC has authorized the request of frequencies.

Sincerely,

Catherine Cordeiro
Austin County Communications Coordinator
